Chelan-Douglas Community Action Council Presents:

Don’t miss this!
A message for seniors...

Learn about the OTHER Pandemic!

We hear a lot about the Covid-19 Pandemic, as well we should, considering so many have died. But there is another pandemic that our country has been dealing with far longer and which has killed over a half million Americans—the Opioid Pandemic! And this one also is affecting many seniors — 5.7 million seniors are estimated to be affected by the end of this year.

Good people who have never been addicted in their lives are falling prey. It starts with a prescribed medication for the persistent pain so many seniors suffer from. But then it gets out of hand. Don’t let this happen to you or your loved ones! Learn about opioid dangers and what can be done to fight back! To learn more about a Zoom presentation: Contact Keith Madsen at keithm@cdcac.org or 971-645-1021.

Keith Madsen is in his second year of service with AmeriCorps, educating both young people and now senior citizens (which includes him!) about opioids.
